Course Survey

- What is it that you most want to get out of taking this course?

  I want to learn how to design interface. Because I major in CS and my courses are all focus on the back parts so that most project of my has no interface at all. **But I think the interface is of great importance. So I am eager to learn more.**

- Briefly describe the most complex human-computer interface you've created in past work.

  Actually, hmm, I read the code GOMOKU, a 15*15 board game Human and AI agent game's interface, which is written by my group mate and learn a lot from it.

- How certain are you at this time that you will be taking the course?

  I am sure I will take this course even though it seems very challenging. (Frankly speaking, the person main page take me a lot of time)

- Have you taken any other courses related to HCI in the past? What?

  No, actually.

- What other courses are you taking this term?

  Algorithm

- What programming language are you most comfortable programming in for the class?

  Java and C++
